Subject COMMENTS DUE NO LATER THAN SEPT 24: Draft EPA
Decision Document and Response to Comments on Adding
Waters to Oregon 2010 303d List

Hi All,

I invited all of you to a meeting on Oct 9. Unfortunately that was the first date and time everyone was available. The purpose of that call is to discuss any of your comments in which we disagree or do not understand. If there are no such comments, then the call will be cancelled. If the call is not cancelled, I will send out an agenda prior to the call.

You are welcome to send your comments anytime. We are still eagerly anticipating your comments this week or by September 24 at the latest. Although I know the focus of your review may be on NWEA's comments and our responses (towards the end of the Response to Comments document), we welcome comments on all parts of the documents.

Please send your comments directly to me and I will either address them or distribute them to folks within our team. Thanks to those of you who already provided Jill comments on her paper addressing the ocean acidification studies sent by CBD.

Regards,

Jayne Carlin, Watersheds Unit
